

BEHIND THE TAG OF THE GOLDEN BONE

Behind every Golden Bone Tag you will find a rescued Golden Retriever. Old? Injured? Abused? Unloved? Abandoned? Rescue a Golden of Arizona (RAGofAZ) never says “NO” to **ANY** golden who has never shown aggressive behavior and needs to be rescued.

GOLDEN CARE

All our rescued Golden Retrievers are expertly evaluated and receive restorative Veterinary care. The RAGofAZ “**Gold Standard**” of Vet care insures our Golden Retrievers are fully vaccinated, spayed or neutered, micro-chipped, and given medication when required. And finally, each Golden is given their own “**Golden Bone**” Collar Tag prior to being prepared for adoption by their new family.

CARE HAS A PRICE.

We need **YOUR** help to make this “**Gold Standard of Care**” possible. The average cost is \$1200 for every dog that enters our rescue. Adoption fees do not cover this cost for initial medical care, even though our veterinarians greatly reduce their service fees. Fundraising events, donations, and memberships help bridge the difference.

When you become a RAGofAZ member you will be making a “**Golden**” difference! With your membership you will keep up with our Golden Retrievers and their involvement in Valley events through our quarterly newsletter.

ALREADY A MEMBER?

Please continue your membership so other families can enjoy the same support you received when the Dog with the Golden Bone Tag came into your family’s life. Your membership will also help to honor the memory of a Golden who went “over the bridge.” And your support will help all of our volunteers who donate their time, energy, and talents to deliver a lifetime of love...your love...to all of our Golden Retrievers!
